

# "My Weekend Plans" Comic Strip

## Assignment Description:

In this assignment, you will make a comic strip to tell us about what you will do this weekend. You can tell us about actual plans you have this weekend, or you can create your own imaginary plans for the weekend. You will use the "ir+a+infinitive" formula to discuss actions that you are going to do.

For example, you might say, "En la mañana en el sábado, voy a cocinar desayuno para mi familia. Ellos van a disfrutarlo porque les gustan mucho los panqueques." For this example, you may include an image or drawing of someone making pancakes or a family eating pancakes. You would then continue the comic strip frames in chronological order with the rest of your actual or imaginary weekend plans. Be creative and have fun! You will have the opportunity to share your comic strip with the class if you would like to, but this is optional. All comic strips will be submitted, in person, to the teacher on Monday, April 4 for grading.

**Due Date:** Monday, April 4, 2022

## Required Comic Strip Elements:

- 6 comic strip frames in chronological order
- 6 images or drawings, one for each frame
- Each frame must include a hand-written two sentence caption that explains the image
- See rubric for more details about requirements
